The announcements were few but worthy of repeating.

The delivery of the Salt & Pepper mechanisms went fine with the exception of one glitch. That was in delivery of wrong size units and since been corrected. For your information, you consumed 169 separate units. It is felt that these units will be found on many gift lists in the months to come, they do make very good gifts.

Second announcement pertains to CCW being invited to be the GUEST exhibitors for the span from April 4th to May 14th. The invitation comes by the way of ANN BROWN of the Morro Bay Art Center located at 835 Main St in Morro Bay. As a special inducement there will NOT be an entry fee for this exhibition. Sold items will be paid 65% of the selling cost. For those of us who have not had many experiences in selling, it is to be considered a good rate.

Now the particulars: Goods should be delivered to the Gallery on Wednesday April 3rd between the hours of 10:00AM to 2:00PM.

The show will open on Thursday April 4th , show hours are from 12:00 Noon to 4:00PM. The reception for artists is Sunday April 7th, hours are from 2:00 to 4:00 PM. Any contributions in the form of wine and Hors d'oeuvre will be gladly accepted.

The show will close and unsold pieces can be picked up on Tuesday May 14th. from 10:00 AM until 2:00 PM

CCW Meetings are held on the 2nd Saturday of the month.

Our next meeting will be on Saturday April 13th. Starting time is 9:00 AM.

Meetings are held in the Odd Fellows Hall, 520 Dana St San Luis Obispo, CA

Central Coast Woodturners

Show info Continued

The family of our former turner has asked me to help sell a lathe that was bought slightly used and never used by our member. Sickness set in.

It is a Delta Cat # 46-700. It has a vari- speed system capable of 30" between centers. It is mounted on a wide spread leg stand.

Included is a Vicmarc 100 3'1/2 Chuck , still in factory box(Never Used). A One-way Revolving center with a Bull nose cone and Full point cone. (Never Used)

A box of assorted chisels.

The family would like to sell the whole package for \$500.00 CASH

If you feel that you are interested a visit can be set up to see and activate the lathe with a bit of notice. Contact me, George Paes and I will try to coordinate a visit as this is in a gated community and there are procedures to gain entry

I apologize for not giving recognition to all that showed entries at the last meeting. I wanted to get this out so that the notices of the show and lathe sale as soon as possible.

Be sure to have each item priced, a brief description of its species and use and also special features.

The gallery is open Seven days a week from 12 to 4. Be sure to tell your friends and relatives. We are beginning to come into the tourist season so let's give this our best shot.

As an added attraction to our monthly meeting and raffle was High Tech Saw Blades supplied by the Irwin Company. The intention was to get these blades to different turners and to have them offer a recap on the performance. A second letter to **George Paes** was a further inducement in that some time after July 1st when most recaps should be returned a drawing will be held to give the recipient \$500.00 in Blades, Chisels and Clamps. Good time to brush up on your essay techniques..

Due to the extra activity in preparing for the Morro Bay show, the challenge project for May will be waived, However, show and tell will be emphasized and let's give it a Class A effort with different turnings.

NOTE THE NAPKIN RINGS

Ray Johnson
Showed his rings from a branch of a freshly cut Peach Tree, He added some burning embellishments

Wil Hannemann's
Totem style stacked rings (Right)

Bob Gleason
showcased his Mesquite rings in a felt lined presentation box

Joe Mansfield with Dual use rings, Napkins and Braceket for

Bill Peterson helped Blaine display the 1 year of filling pepper mill. Photo extended to emphasize the Harris Pepper mill

The above photos were sent to me by our former member and now in the Sacramento area **Bob Goss**.

Bob, sorry I missed putting in last month. Great work, Come Back to SLO

Bob Gleason fabricated this steady rest from plans that are available from the June, 2009 edition of Woodturning Design.

Rick Haseman showing two Pepper mills turned from Bamboo Plywood but using two different approaches. Rick, we are still waiting for a Legacy turned mill!!!

Sorry about the back lighting

John Long offers a ring from a branch in his yard

Kenny Moore 's rings were turned from Plywood

Bill Peterson shows his rings on a ribbon

Wil's totem rings of different woods and shapes

Dave Burns follows up on last month's challenge Mill

Blaine Harris shows the longest pepper mill in CCW's assortment

Doug Brown presented one huge bowl of Black Acacia and 2 Oak Hollow forms

Bob Gleason showing and telling how he made his steady rest and how he found used skate wheels

Stan Liechty explaining his glue up method prior to turning.
