Moments from July Meeting

The session started off with a few announcements.

Confirmed demonstration by **Mark Gardner** on Sunday November 17th. Site to be determined

A demonstration by **David Ellsworth** will be on Friday March 14th, site to be determined.

A tour of the Aura Lumber facility (Formerly Higgins) will be in September, Saturday the 14th. This is our regular meeting day. After the presentation at Aura, we will proceed to our meeting hall on Dana St.

Be reminded that our annual Fall Picnic will be held on Sunday October 6th. More details will be forthcoming. One thing for sure is that we will have FRISBEE 3 with more prizes.

The picnic will be held at the Nipomo Community Park in the PINE Section.

Now is the time to turn a new Frisbee or fine tune the old ones.

The Challenge project for July was very weakly met, only 5 participants had the gumption to be part of the active members.

Gordon Rowland started off with his Micro - Mini rolling pin, small in size but it had the working properties, Now to find a pie or pizza that small.

Bill Winchell's offering was made of Sycamore with Fogwood handles

John Long also used the ever present Fogwood for his pin.

George Paes presented two different rolling pins, the 1st which required a lot of research was a Ravioli Rolling pin, it was not made to spec but it showed participation. His 2nd was a French Style rolling pin, very plain, High in the center and tapered to the ends.

OOPSIE, MAKE THAT 6 ENTRIES

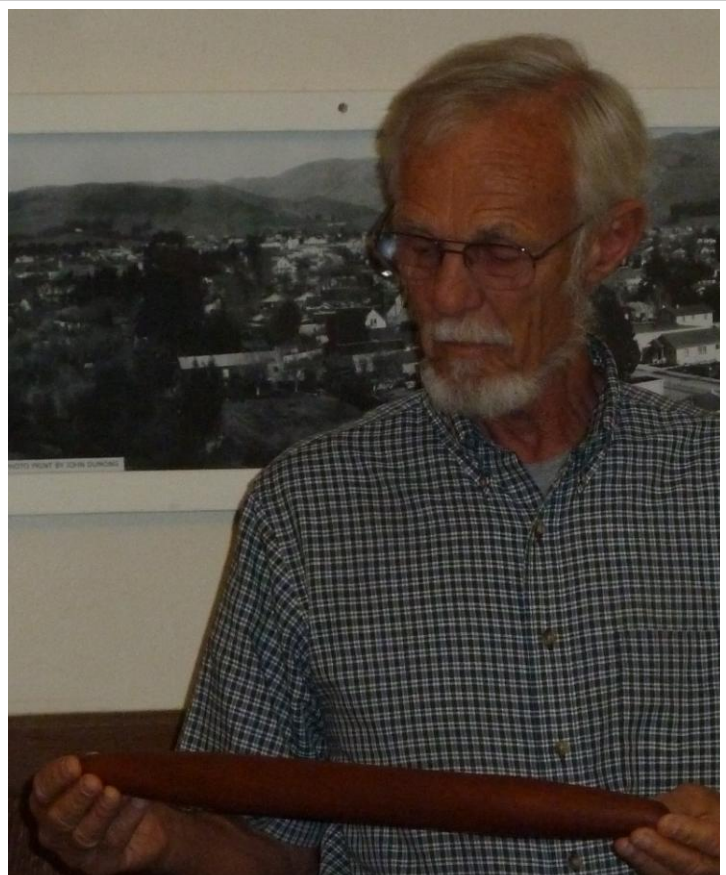

Kenny Moore Brought to the meeting a "NASCAR" pin in the Checkered Flag Style. Kenny mentioned that he again under the urging of his daughter, he created the checker board style, Last month, it was an Ice Cream Scoop that his daughter will receive

John Long explaining his ever growing species Fogwood.

John was kind enough to bring to the meeting for the raffle several logs of Mimosa. John had said that he had turned a piece and found it to be "Fuzzy".

(Editors note)

George Paes was lucky to win one of those logs, and yes they are fuzzy. One thing to be considered is that the wood is very green but does have some attractive grain patterns. It is now been stored for at least a year before trying again.

Bill Winchell (above) with his offering of Stave Construction .
(top left) Bill with his Sycamore and Fogwood rolling pin

George Paes with his Ravioli Rolling pin, not show is the French Style Rolling pin

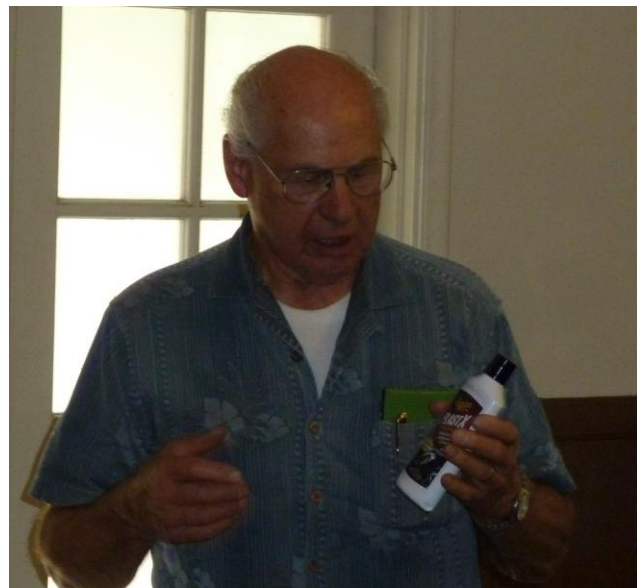

Gordon with the Mini Rolling Pin

Rick Haseman shows his ever increasing inventory of GOBLETS. His method of sealing the insides leads to non dripping. We should all try to make one to be used in a toast to CCW at the Picnic and, or Holiday Luncheon

Kenny Moore's tribute to his other passion, A Lighthouse Pepper mill.

Bob Gleason explaining a product he found to be helpful in the finishing phase of woodturning. Product is PLASTX, made by Meguiars

The Central Coast Woodturners is an Chapter of the American Association of woodturners. We meet on the second (2nd) Saturday of the month. Our meetings are held in the Odd Fellows hall on 520 Dana St in San Luis Obispo, CA. Next meeting will be on Saturday August 10th.

Meetings start at 9:00AM and the normal agenda consists of updating of news from the woodturning world, 2nd on the schedule is viewing of the challenge project, probably a short break, then Show & tell. Lastly we will hold a raffle of donated items.

Mike Magrill & George Paes will be guest turners at the Elverhoj Museum in Solvang on Saturday and Sunday , 21st & 22nd respectfully. This will be in conjunction with the Santa Ynez Valley Woodworkers Guild.

(Presidents note)

Very prominent at our meetings there are several members who will attend regularly to demos, sawdust sessions and meetings but never, or at least very seldom participate in Challenge or Show and tell. If you take the time to attend, **PARTICIPATE.**

A challenge project for August will be waived but you'll be asked to bring in your oldest or most favorite turning. This could be a chance to show how much we have all progressed in our chosen hobby, **WOODTURNING!**

The Raffle table, **memo**, the monthly raffle is what can help us when a demo comes along.
