Don Barr
Librarian

Next Meeting will be on
Saturday July 12th

Odd Fellows Hall
520 Dana St
San Luis Obispo, CA

Challenge Project

Plate or Platter

Re-cap of June Meeting

Don Barr, **Bill Winchell**, **John Long** and I opened up to hold our meeting we thought out loud that we'd probably have a poor turnout, **WRONG**, a good attendance and a lot of participation..

Announcements were few, they included notes about the Delta Lathe power switch problems. This complaint has been submitted to Delta, awaiting their reply.

A suggestion was made that we seek out a way of incorporating an "Outside : switch. I suggest that we give Delta a few days to reply.

Announcement was made regarding the upcoming classes by **Mike Mahoney** and **Jerry Kermode**. The Schedule is: Mike Mahoney will hold sessions on the 7th of July to the 10th. Fee is \$475.00

Jerry Kermode will hold his sessions on July 14 to 17th. Fee is \$425.00

These classes will be held at the Diablo Woodturning Center at the Pleasant Hill Education Center Room 108

If you have interest in attending Jim Rodgers will help you make reservations for a motel in the area. He can be contacted at 925-229-5773

Jerry Kermode is also planning on a trip South in November and CCW will contact him for a possible all day Demo

Central Coast Woodturners

Show and Tell and Challenge project sort of got mixed together

Dan Ross started Challenge with Bowl turned from Eucalyptus. He asked and got assistance from **Mike Rude**.

John Long showed what can be turned from a laminate construction beam

Doug Brown, See I make BIG Bowls from Sycamore with Oil finish

Coast Woodturners

Noah Lemus showed that he did make a finial but was absent that Saturday. He filled his duty with a Bowl and Turned a Walking Stick for his mother who had an ankle injury

George Paes Showed that there are small Urns, called Friendship or Companion Urns

Dave Burns offered candlesticks as small bowls????

Don Barr proud to show his OFFCENTER" Oak Bowl for Granddaughter for a Fruit

Central Coast Woodturners

Mike Rude didn't get his picture taken with his new product, Quite Novel an I Pad Holder

Ernie Miller sent this photo from the Instant Gallery at the Phoenix Symposium, No doubt this new style is turning some heads

Photos today were thru the efforts of **Larry Truesdale**, bad part, he did not get his entries of Bowls turned from Russian Olive, Apricot and Redwood burl.

Thank you **Larry**

Side notes: There were 21 members in attendance, coupled with 10 missing to attend the symposium, I'd say good group.

Be reminded that Challenge is a Plate or Platter , also October is nearing, don't forget to turn a BALL.

CCW was the only chapter that replied that we would like to host Ashley Harwood and strangely The Central Coast Woodturners of AUSTRALIA had her demo and was very happy that they did. A remark regarding Ashley was that with only three years of experience, she might not be qualified enough, my thoughts are that she would probably be an inspiration to our newcomers.

See you in July

George
