

# Central Coast Woodturners

## CCW Officers

George Paes  
President

Gordon Rowland  
V. President

Bill Kandler  
Treasurer

Don Barr  
Librarian

Next Meeting  
Saturday June 14

Odd Fellows Hall  
520 Dana St  
San Luis Obispo,  
CA

Challenge for June

Turn a BOWL

## Looking Back to April & May

April has us back for a joint project hosted by **Dennis Ivans** in his shop fabricating Longworth Chucks. Dennis says 13 different members participated. Efforts of this type are always welcome. His next project is the Multi Hole Chisel Rack. More on this after the symposium.

Speaking of the symposium, that will convene in Phoenix June 13, 14 & 15th. As of the last count about 9 or 10 CCW members will be attending and leaves us with plenty of members to hold our regular meeting.

Many thanks go to **Bill Kandler** for hosting the **Ray Key** demonstration. Ray brings a different style of turning compared to that of **David Ellsworth**, Ray prefers smaller projects with dry wood than the big wet woods of David. Both most informative and entertaining.

Nothing yet scheduled for the rest of 2014, but we are working on it.

A Saturday workshop for those who participated in the fabricating of the Elbo tool. This will be in **George Paes'** shop on Saturday May 24th starting about 9:00 AM. Planned for that session will be several chunks of wood to try bowl hollowing and possibly 2 for hollow form turning with a small opening. This will be a good time to see, watch and do some work with the tool.

CCW will convey its desire to host **Ashley Harwood** at some time in the future. More on this when available

Welcome Newbies **Katrina Ostby and Jim Clark** look forward to your participation.

## Announcements Continued

**Will Arculerius**, a former member of CCW now living in Utah, has sent to CCW a very interesting package containing special designed tooling. As most agreed it is an updated ring cutting set up.

It contains a Cutting tool holder that can be set up for multiple angles for cutting, it takes it to cuts can be made from both sides of the workpiece so as not to chip out any of the wood. Along with the tools also included was a DVD showing in detail the necessary cutting, glueing and assembly. Several copies were made and distributed with the plea that after it has been viewed no matter how many times that the DVD be given to another turner that might live close by for again viewing and again passed on to another turner.

Anyone who attempts to go thru the procedure is welcome to borrow the tooling and show us his results, good or bad.

All this action was precipitated by a photo on the cover of Packard Machinery Catalog and of a piece displayed at the symposium in San Jose.

I have tried to Contact Will, regarding tools, are they for sale or loan, but no answer.

Also mentioned at the last meeting is that Avocado wood is available by going to Halcyon area of Arroyo Grande, to try to put direction in print would be difficult, interested call George Paes for directions. Be aware this wood pile will yield turning blanks as well as fire wood, only request is not to leave the pile in a messy way.

Looking ahead, as of now we have 9 turned pieces from the demos of David Ellsworth and Ray Key that will go into the spouse drawing at next years holiday luncheon. And just received a box of wood blanks that will go to the this years picnic Boce Ball winners. Suggestio Better start making a ball, 3 to 4 inches in dimension, one for you and one for your spouse. Not a bad idea to have a backup or two.

Be reminded that turned articles for sale are being accepted at the GOLDEN HILLS HOME & GARDEN CENTER located at 2111 Golden Hill Road in Paso Robles. This is an opportunity to earn some extra dollars. If you go, be sure to have a duplicate list of your merchandise. The contact there is **Elizabeth Cardiel** or **Sarah**. Its been a long time to have a commission rate such as this, 20%, very interesting

Challenge for May was to turn a weed pot

**Don Barr** with Cherry Weed Pot

**Bill Winchell** with Mulberry

**Larry Truesdale** with one of 3 in Butternut

**Will Hanneman** with Ironwood

**John Long** with FOG wood

**Katrina Ostby** with Mahogany

**Rick Haseman** with ring cut bowl w/ inserts

**Bill Kandler** with 2 layers 550+

**Dennis Ivans** w/36 hole chisel rack

**Blaine Harris** with matched

Ernie Miller w/ African Blackwood Urn

Doug Brown w/ large Oak Hollow form

George Paes w/ reshaped hollow form

Dan Ross with 2nd version of euro mill
