September 15, 2007

Guest: Chris Hanson, Santa Ynez

Announcements:

Ken Hanson will be coming home on Sep 20 as he recovers from his illness.

Our Chapter will have space in the Nipomo Library's Display Case in December. Consider placing some of your work. Items should be for sale.

Summer Picnic...Sunday, October 7 starting at 12 noon.

Location: The Pine area of the Nipomo Regional Park.

[See map at end of Newsletter].

Bring a dish to share, your place settings, plates and something to drink. The chapter provides the main course...Salmon and Top Block.

Cindy Drozda will demo at George's shop on **Weds, October 17** starting about 9 am.

[www.cindydrozda.com]

Al Stirt will demo in **November**, the date to be determined.

[www.alstirt.com]

Jimmy Clewes is on the schedule for next **February**.

[www.jimmyclewes.com]

We suggest that members take the advantage of close interaction with the various demonstrators by hosting them while they are on the central coast. A place to sleep and a home cooked meal would be appreciated. Check with George about the details.

Bill Hrnjak offered some advice to the members. Be a nice guy and create an **inventory** of your shop contents (with the values of the items) for that time when survivors have to deal with "closing it down." He had just attended an "estate sale" where lack of info let things go for a pittance.

Note: Bill is looking for a band saw for metal cutting. [929-0552]

SEE last page about availability of Brown CA Glue

Challenge project: A Birdhouse

George Paes: I converted a hollow form [with problems] to a birdhouse. As the roof is fixed in place, the birds have to do their own housecleaning.

Bill Winchell: The body was turned from a 6" Redwood fence post and capped with a layered Deodar Cedar roof.

Awilda Wilson: A hanging birdhouse with a dark wood roof over a light wood body...no sanding. While hollowing, she experienced multiple catches. The audience offered advice about drilling a hole to depth and then turning the side grain wood instead of the end grain, thereby lessening the chances of a catch.

Richard Hart: A low, squat birdhouse that had a snap fit joint at the "equator".

Rick Haseman: This large birdhouse has a stave construction body. He used his Legacy machine to create a ribbed surface on the body of the house. The roof is from layers of Redwood. He has a plan to shingle the roof using segments from pine cones.

Mike Magrill: Used African Mahogany to create a nice natural finish birdhouse.

John Long: A small hanging birdhouse from a 2" limb of Cotoneaster. This wood is quite stable, light toned and turns well. Hard to find large dimensioned pieces.

Show and Tell

Gordon Rowland: Starting with a cast-off piece from George Paes, Gordon took the layered Baltic Birch plywood vase and removed all of the rim except for two opposing sections. He has sculpted the "wings" to get the curves back. Gordon uses his drill press to turn the sanding drum or disks. This allows better control of the piece using two hands to guide it as the shape progressed. He will attempt a tinted finish.

Ernie Miller: A small Cherry pet urn with a threaded top. The finish is wipe-on poly.

John Long: I was given a segment of a Paralam beam from the Methodist Church construction site. I was challenged to turn it. Well, it is definitely not my favorite wood. Because of the nature of the wood used in creating Paralam materials, there was a lot of tear out on the end grain portions. It also resulted in rapid dulling of the cutting tools. The small bowl had lots of defects that were filled with wood dough and sanded. The finish was Waterlox.

Jack Larsen: Using Cherry, Birch and Paduk segments, Jack turned a narrow mouthed vessel to go with his segmented platter from the July meeting.

George Paes: Using Ash for the body and Zebrawood for the threaded cap to create a low, flat urn. He also turned a companion urn from Ash.

Cindy Drozda

Al Stirt

Jimmy Clewes

2007 Challenge Projects by the Month

- ~~1-Platter, 2-Jewelry, 3-Box, 4-Rolling Pin, 5-Hollow form, 6-Spindle Work, 7-Bowl~~
~~8-More than one type of wood, 9-Birdhouse, 10-Embellished work, 11-Threaded piece~~
12 -Miniature piece...less than 2" on a side

NEXT MEETING:

**9:00 am, Saturday, October 20th, Odd Fellows Hall at 520 Dana St.
San Luis Obispo**

Challenge project: Embellished Work

FALL PICNIC

**SUNDAY OCTOBER 7, 12 Noon
At
NIPOMO COMMUNITY PARK
In the
*PINE PICNIC AREA***

The first Right after the Library entrance off W. Tefft St.

In the park, Take the first right to the Pine Picnic Area

Bring:

- ? **Your own table service**
- ? **A side dish or salad or dessert**
- ? **Your own beverage.**
- ? **Your significant other...**

Ken Ray will be serving samples of his Home Brewed Beer.

The Chapter provides Barbequed Steak and Salmon

**We hope to have two Rose Engine lathes.
Bring a piece of special 2"x2" wood to try!**

SEE YOU THERE !

George's cell # 478-6370 (if lost ...)

Best Quality Best Price
World's Best Cyanoacrylate Adhesives

Non-toxic, Non-flammable, Waterproof
 ...Manufactured in Japan for over 40 years; serving the U.S. market since 1988!
20 months guaranteed shelf life*

A. CA Adhesives: Non-hazardous products

*Starbond	Item No.	Viscosity	25 per case	25 per case	20 per case
			1 oz	2 oz	16 oz
Very thin	EM-02	2-3 cps.	\$3.00	\$5.00	\$30.00
Medium thin	EM-40	40 cps.	N/A	\$5.00	\$30.00
Medium	EM-150	150 cps.	\$3.00	\$5.00	\$30.00
Medium thick	EM-600	600 cps.	\$3.00	\$5.00	\$30.00
Thick - filler	EM-2000	2000 cps.	\$3.00	\$5.00	\$30.00
Black medium	KE-150	150 cps.	\$5.00	\$10.00	\$60.00
Brown medium	BR-150	150 cps.	N/A	\$10.00	\$50.00

*Note: Each glue bottle above is individually packed in a poly bag with extension tips & an extra cap.
 16 oz glue bottle includes 4 x 2 oz empty bottles.*

B. Flexible CA Adhesives: High Impact Resistant, Heat Resistant and Weather & Humidity Resistant.
4 times more bonding strength than standard CA!

			25 per case	25 per case	20 per case
Thin	KEG-20	20 cps.	\$5.00	\$10.00	\$60.00
Med-Thick	KEG-500	500 cps.	\$5.00	\$10.00	\$60.00
Thick	KEG-2000	2400 cps.	\$5.00	\$10.00	\$60.00
Black Thick	KBL-2000	2400 cps.	\$5.00	\$10.00	\$60.00

C. Odorless CA Adhesive: Non-odor - No fumes that irritates nose & eyes!

Super Thin	N/O-05	2-3 cps	1 oz. N/A	2 oz. \$10.00	16 oz. \$60.00
------------	--------	---------	-----------	---------------	----------------
